

Important – Always read and follow the care instructions and any warnings provided by the carpet manufacturer. Rugs and carpets made with natural fibers and/or certain dyes may require special treatment. Always test fabrics to be cleaned for color fastness before use. If in doubt, contact the manufacturer for advice prior to cleaning.

- Thoroughly vacuum before any cleaning
- Lightly mist spot with Crystal Spotter®
- Agitate spot with the Carpet Roamer® Spotting Tool, working Crystal Spotter® into the affected area
- Allow area to completely dry
- Vacuum affected area. If spot is still present, proceed to next step.
- Saturate spot with Crystal Red Stain Plus®
- Blot until dry with white paper towels or terry cloth
- Repeat until coffee stain has been removed
- Follow with Crystal Spotter® and agitate spot with Carpet Roamer® to eliminate any chance of residue.

Note: Use only approved spotting agents. It is always best to clean carpet spots as soon as possible after the spill to avoid permanent stains.
