

# We clean carpet with CARE

C

**Check** matting and conduct frequent vacuuming to prevent the buildup of soil in the facility.

A

**Address** any spots or stains immediately with industry leading tools and equipment.

R

**Remove** stains with chemistry that meets CDC guidelines and uses the power of hydrogen peroxide.

E

**Encapsulate** soils to provide a more thorough clean, all while using less moisture and noise.

We are committed to  
maintaining cleanliness  
and protecting you.

To clean and maintain carpet, we:

- **Follow CDC guidelines** and approved methods.
- **Use trusted and certified** carpet cleaning products.

- Utilize low-moisture encapsulation machines that **maximize soil removal.**

---

We hope you enjoy  
the cleanliness and comfort  
of our facility during your visit!
